Posts Dividend of \$15,000 for Payment on the 20th of the Month.

EUREKA-OPHIR IS SHIPPING

LEAD HITS HIGH MARK OF \$5.60 PER 100 POUNDS.

In order to start the new year right and be the first company to get to the front, the directors of the Bullion-Beck Tunnel Consolidated company got together in P oto yesterday and declared a dividend of 1½c per share, aggregating \$15,000. Books for the transfer of the cal settling price of lead fixed at \$5.50 per 100 pounds by the American Smelting & Refining company. This is an advance of 1½c cents per 100 pounds over the prevailing price last week and means that the producer can settle during this week at an advance that means \$1.25 per ton more on ore carrying 50 per cent lead. ing \$15,000. Books for the transfer of stock are to close on the 15th and payment is to follow on the 20th of the month.

Silver opens at 64% cents per out lead than he could have received last week or, for that matter, any week during the last several years.

Silver opens at 64% cents per ounce, a

Three months ago the Beck Tunnel was an assessment proposition. Last month it came to the front with a diviing increased by half. Mention has several times during the past few copper remains at 18% cents per pound, weeks been made of the strike that was made in the company's La Reine teattory and, while Uncle Jesse Rnight, the manager, has been frank to let everybody know what was doing, all that has been said has been taken First Fifty Feet in Development Tun-S. Swansea with several grains of salt, the belief being that more or less "hot air" was

things up in a mining way during 1906 and the action of the Beck Tunnel management in jumping out with such a nice dividend this early, makes it begin to look as though the predictions the San Francisco exchange yesterday M.-Tono were going to be fulfilled.

FOLLOWING BUCKHORN'S LEAD.

Eureka-Ophir Joins the List of Regular Ore Shippers.

Following in the footsteps of the famous old Buckhorn property at Ophir another steady producer has been added to the list in that camp. This time it is the Eureka-Ophir company's property just over the divide from the Buckhorn in Dry canyon. Last season C. H. Doolittle and associates took hold of the proposition and began develop ment. Before the holidays the work had sufficiently progressed to permit of a couple of trial shipments being made Now enough ground has been opened for stoping to make it possible to keep shipments regularly coming during the winter, while plans for the spring include the erection of an aerial tram to carry the down through the canyon to the flat below, to make the wagon haul to the Home-Tonopah 24 25 railroad easier, and the building of a Cash Boy, 26 27

mill to hand'e the second-grade ores. oped on the 300 level of the shaft worl ings and later a cross-cut from the 40 level encountered the same shoot Manager Doollitle states that it is ye too early to predict what this fine shoo of ore will amount to, but as the prop erty lies between the famous old Mor and Hidden Treasure bonanzas, mine that in the early days frequently too out from \$500,000 to \$1,000,000 from on pocket or shoot, the possibilities of th strike in the Eureka-Ophir are consid-

ered at least promising.
The trial shipments before the holidays showed the presence of better than 10 per cent copper, with good values in lead, silver and gold, and the ore now being shipped is expected to run better, if anything, than did the but rich copper glance and chalcopyrun of the first-class or shipping rock. As it was found difficult to get team-sters to do the company's hauling Manger Doolittle ordered the purchase of good outfit belonging to one freighter who had declared his intention of "laying up" for the winter, and this outfit, consisting of teams, wagons and bobsleds, is now in the service of the company and the first car of ore hauled to Stockton, the loading station, by it is bow ready for shipment to market, while others will follow as rapidly as

he hanling can be done. WEATHER CAUSES TROUBLE.

Samplers, Mills and Smelters Up. Against Frozen Ore.

The continued cold weather is making all kinds of trouble for the prowhich the percentage of moisture is Nev. Con ... 2,399 12 beavy, and with them the sampling Greene Con . 3,500 81 nfils and smelters are sharing it. Fine ores and concentrates freeze into solic masses in cars after loading if that condition does not prevail previously. When the cars reach the samplers it is hecessary to use pick and gad to loosen up the mass and, in the case of con-pentrates it frequently happens that

blasting has to be resorted to. Concentrates that have been shipped from the Buckhorn property, at Ophir, Juring the last few days, game out of tamp with the thermometer at 24 deulty that the teamsters could unload helr wagons into the cars. Material hat reaches the smelters under similar de at the samplers there, and in som estances the greatest kind of difficult reported as being hard to keep th res and concentrates in the smeltering up solid.

For just about a month there ha een hardly a day and never a nigh hat it has not frezen quite hard and nless a moderation in the weath omes soon, concentrating and san ling mills will have a hard time t

BINGHAM & EASTERN.

ong Tunnel Coing Cleared Out That Mine May Be Examined.

waring out the 1,400-foot cham & Eastern com-t Birgham is progress-t rot inpidity. At a dis-t from the mouth of the her has been encountered ben have been working in have are yet unable to get has happened beyond.

The same of the sa

through has been caught up it is expected that little trouble will be encountered in making the balance of the distance. After the tunnel has been cleared and it is possible to explore the workings and get bearings by survey, if conditions warrant it a campaign of new development will be inaugurated and carried through by those who have sesured a bond on the property from the eastern owners.

A feature of this work that has been causing not a little concern in the camp of Bingham is the fact that this tunel has supplied a considerable portion of the flow of water that has supplied the town for culinary and other purposes. That has been one result of the long idleness of the property, but it cannot continue, as the ground is considered altogether too valuable to bother about the fifty gallons of water per minute that has been running from the mouth of the tunnel, other than as it will be most likely utilized in the spring to operate a small Peiton wheel to furnish air to the workings and thus cut out the cost of operating the gasoline engine now in use.

GOLDFIELD-BONANZA CONTRACT.

nel Ordered Run. being that more or less "hot air" was being injected into the reports made public. If anything has been needed to remphasize the fact that the truth has not yet been all told, it comes in the news of the dividend posted yesterday. It shows that the ore body encountered is not only large, but that the values are high, as shipments of four cars of low-grade material per week would hardly meet the costs of operating a mine and putting \$500 a day into the dividend fund, as well.

The prediction has been frequently made during the last two or three months that Tintie was going to shake things up in a mining way during 1906

Utah Stocks In Boston.

James A. Pollock & Co., bankers and brokers, yesterday received over their private wire from Paine, Webber & Co., one of their Boston correspondents, the record of sales of Utah stocks on the Boston market, with range and closing supportations. guotations:

Boston, Jan. 2.—The market opened strong, heavy buying orders having accumulated over the holidays. At the opening prices, however, considerable selling appeared and prices reacted. North Butte advanced sharply from 87 to 89 on buying orders for about 1,000 shares. Money is still very tight and we expect a reaction within the next few days, when people begin to realize what it costs to carry stocks in the present money market. Utah Consolidated and United States Mining furnished the greatest activity.

	Mining furnished the greatest a	ctivity,

STRENGTH ONLY

tal of 44,771 shares of stock, with a selling value of \$28,862.13.

The eastern demand for Eagle & Blue Bell continued and all offerings of the stock at \$1.80 to \$2 was freely taken. Beck Tunnel was also in sharp demand and from 59 cents it sold up rapidly to 68 cents, the high mark of the day. The declaration of the \$15,000 dividend was largely responsible for the rise. Little Bell, Star Consolidated and New York were also in favor and the strength shown by them was out of the ordinary. As a matter of fact there was a strong undertone to the entire list and the year could hardly have begun under more favorable auspices. Speculators More Conservative Than They Were at Last Week's Close.

CALL MONEY REMAINS HIGH

RELIEF EXPECTED FROM DIVI-

vorable auspices.
Following is the list of final quota-tions and the record of sales made dur-ing the two regular and open board calls: DEND PAYMENTS. Forenoon. || Afternoon. Bid. |Asked. | Bid. |Asked. New York, Jan. 2-The action of the stock market today indicated rather N. Y. Central... 3,400 Norfolk & West. 20,100 1.50 .25 1.00 .21 1.25 .26 1.00 1.50 .2134 .15 .59 .62 1.021/2 1.30 7.55 1.30 7.65 1.825 2.01 2.021/2 3.06 3.40 1.75 more conservatism in the speculation than was the case last week, even while money rates were ruling at 100 per cent level. The speculation made progress today and there was a broad and active market with plenty of evidence of strength. The strength, however, was in spots and the market showed a large degree of irregularity due to pressure of profit-taking on some of the principal market leaders of last week. The action of the market also showed the strain of the market also showed the strain of maintaining the speculative position in the face of hope deferred in the easing of money. The money situation today was appreciably less acute than last week, but nevertheless the market was undeniably strong. The rate opened at 60 per cent and there was small disposition to yield below 35 per cent, while the active operations of the day were still in progress and belated borrowers made a late rate of 60 per cent.

This was a distinct disappointment to the hopes of some of the boldest of last week's speculators. Many who took as light view of the importance of a 100 per cent rate for one day or two days regard with less equanimity the possibility of a rate considerably less, although still higher, should it be maintained for a period of days or even weeks. The money market was less affected today than was hoped by the large disbursements of dividend and interest money for which provision has been making by the accumulation of cash and by the release of sums gathered into release of sums gat than was the case last week, even while .21% money rates were ruling at 100 per cent 1.92 3.10 4.00 1.05 .18 3.10 .17% .10 .10 .10 .181/4 .14% .091/2 .12 .21 .151/4 .60 .04 Sunshine04 U. Butter and Eggs.

New York, Jan. 2.-Butter-Firm; west-

Chicago, Jan. 2.—On the produce exchange today the butter market was firm; creameries, 17@25½; dairies, 17@22.
Eggs—Steady at mark; cases included, 18@23; firsts, 22; primes, 25; extras, 27.
Cheese—Slow; 11½@13.

GRAIN AND PROVISIONS.

Chicago, Jan. 2—The market for wheat was firm for the greater part of the day, there being at first a slightly easier feeling, which continued until through the first half-hour of trading. This decline was induced by liberal receipts in the northwest and local traders sold freely. The opening on May was a shade lower to a shade higher at 87% to 88 and before the end of the hour the price had eased off to 87% @87%. Higher prices at Liverpool, said to be caused by smaller shipments from Russia and ports on the Danube, together with buying by leading bulls, brought about a reaction and prices made a fair rally. Many oil and prices made a fair rally. Many oil and prices made a fair rally. Many oil as the City, Utah, Dec. 18, 1905. GRAIN AND PROVISIONS.

Sheep—Receipts, 15,000; market 10@18 higher; sheep, 4.00@5.90; lambs, 4.75@7.85.

Assessment No. 16.

ern factory, common to firsts, 15@17%; western imitation creamery, extras, 19%@20; do firsts, 18@19. Eggs-Easys western finest selected, 27.
